

Faculty of International Medical School

The Faculty of International Medical School offers a comprehensive range of medical and health-related programs designed to prepare students for careers in medicine and medical sciences. The flagship program is the **Bachelor in Medicine and Bachelor in Surgery (MBBS)**, available in two locations: India and Shah Alam, with different tuition fees. Additionally, the faculty provides a **Bachelor in Medical Sciences (Hons)** program for students interested in foundational medical sciences. For those seeking shorter qualifications, there are diploma programs available such as the **Diploma in Medical Sciences** and **Foundation programs** focusing on Science Biology and Health Science. These programs aim to equip students with the theoretical knowledge and practical skills required in the medical field.

Faculty of Health & Life Sciences

The Faculty of Health & Life Sciences consists of three main departments: the Department of Healthcare Professional, the Department of Optometry & Visual Science, and the Department of Diagnostic & Allied Health Science.

The **Department of Healthcare Professional** offers a wide range of programs focusing on healthcare services and medical support professions. These include bachelor's degrees such as **Bachelor in Food Service Technology (Hons)**, **Bachelor in Nutrition (Hons)**, **Bachelor in Nursing (Hons)**, **Bachelor in Cardiovascular Technology (Honours)**, and **Bachelor in Halal Quality Assurance (Hons)**. For students interested in diploma qualifications, this department provides options like **Diploma in Nursing**, **Diploma in Medical Science and Health**, **Diploma in Radiotherapy**, **Diploma in Physiotherapy**, and an **Advance Diploma in Midwifery**.

The **Department of Optometry & Visual Science** specializes in eye health and vision care, offering programs such as the **Bachelor of Optometry (Hons)** and the **Diploma in Ophthalmic Dispensing**, preparing students for professional roles in optometry and visual sciences.

The **Department of Diagnostic & Allied Health Science** offers diverse programs related to health diagnostics and management. Bachelor's degrees include **Forensic Science (Hons)**, **Biomedical Science (Hons)**, **Bioinformatics (Hons)**, **Health Science Management (Honours)**, **Environmental Health (Honours)**, and **Occupational Safety and Health (Hons)**. Diploma programs include **Medical Laboratory Technology**, **Occupational Safety and Health**, and **Sport Science**, catering to students seeking specialized practical skills in allied health sciences.

Together, these departments provide a comprehensive curriculum aimed at producing skilled professionals for the health and life sciences sectors.

Faculty of Business Management and Professional Studies

The Faculty of Business Management and Professional Studies is comprised of two main departments: the Department of Business Management and Law, and the Department of Accounting and Finance.

The **Department of Business Management and Law** offers a variety of undergraduate and diploma programs designed to equip students with essential business, management, and legal knowledge. Bachelor's degree programs include **International Business (Hons)**, **Industrial Management (Hons)**, **Human Capital Management (Hons)**, **Retail Management (Hons)**, **Marketing with Psychology (Hons)**, **Law and Commerce (Honours)**, **Islamic Management (Hons)**, **Entrepreneurship (Honours)**, **Office Management Technology (Hons)**, and **Logistic Management (Honours)**. Diploma programs available in this department cover **Management**, **Human Capital Management**, **Retail Management**, **Logistics Management**, **Entrepreneurship**, and **Office Management Technology**. The department also offers foundational programs in **Business** and **Law** to prepare students for higher studies.

The **Department of Accounting and Finance** focuses on financial, accounting, and investment disciplines. It offers bachelor's degree programs such as **Accountancy (Hons)**, **Investment Management (Hons)**, **Finance (Hons)**, **Islamic Banking (Honours)**, **Takaful (Hons)**, **Islamic Finance (Honours)**, **Accounting and Finance (Honours)**, and **Economic and Finance (Hons)**. Diploma programs include **Accounting**, **Investment Management**, **Islamic Finance**, and **Islamic Banking**.

Together, these departments provide a broad range of business, legal, and financial programs aimed at developing competent professionals ready to meet the challenges of the modern business world.

Faculty of Information Sciences and Engineering

The Faculty of Information Sciences and Engineering is structured into three key departments: the Department of Media Science & Graphic, the Department of Engineering & Technology, and the Department of Information Sciences & Computing.

The **Department of Media Science & Graphic** offers a diverse range of programs that focus on multimedia, design, and communication technologies. Undergraduate courses include **Information and Communication Technology (Hons)**, **Graphic Design (Hons)**, **Games Design and Animation (Hons)**, **Instructional Multimedia (Hons)**, **Visual Communication and Marketing (Hons)**, **Creative Multimedia (Hons)**, **New Media (Hons)**, **Creative Video and Photography (Hons)**, and **Product Design (Hons)**. Diploma programs in this department cover **Multimedia**, **Graphic Design**, **Games Design and Animation**, **Creative Visual**, and **Interior Design**, alongside a foundational program in **Visual Art**.

The **Department of Engineering & Technology** focuses on engineering disciplines and technological skills. Bachelor's degree programs offered include **Computer Engineering (Hons)**, **Engineering Technology (Electrical and Electronic) (Hons)**, **Aviation Management & Piloting (Honours)**, and **Mechanical Engineering (Hons)**. Diploma courses cover **Electrical and Electronic Engineering**, **Computer Engineering**, **Aircraft Maintenance Technology**, and **Mechanical Engineering**. The department also provides a **Foundation in Engineering and Technology** program.

The **Department of Information Sciences & Computing** caters to students interested in computing, information systems, and technology management. Bachelor programs include **Computer Science (Hons)**, **Business Computing (Hons)**, **Information Systems Auditing (Hons)**, **Computer Forensic (Hons)**, **Information Technology (Honours) – Mobile Wireless and Technology**, and **Information Management (Hons)**. Diploma offerings include **Information Technology**, **Business Computing**, **Computer Forensic**, **Information Technology (Mobile and Wireless Technology)**, and **Information Management**. A foundational program in **Information Technology** is also available.

Together, these departments provide a comprehensive selection of programs designed to develop skilled professionals in media, engineering, and information technology sectors.

School of Pharmacy

The School of Pharmacy offers specialized programs focused on pharmaceutical sciences and traditional medicine. At the undergraduate level, students can enroll in the **Bachelor of Pharmacy (Hons)**, **Bachelor in Traditional Chinese Medicine (Hons)**, and **Bachelor of Science in Pharmaceutical Technology (Hons)**. For those seeking diploma qualifications, the school provides **Diploma in Pharmacy** and **Diploma in Traditional Chinese Medicine** programs. These courses aim to equip students with comprehensive knowledge and practical skills required in pharmacy, pharmaceutical technology, and traditional Chinese medicine, preparing graduates for careers in healthcare, research, and pharmaceutical industries.

School of Dentistry

The School of Dentistry offers a comprehensive professional program with the Bachelor in Dental Surgery degree. This program is designed to train students in the art and science of dental care, preparing them for careers as qualified dental surgeons. The curriculum combines theoretical knowledge, practical skills, and clinical experience to ensure graduates are well-equipped to provide high-quality dental services and contribute effectively to oral health care.

School of Education and Social Sciences

The School of Education and Social Sciences is composed of two main departments: the Department of Education and the Department of Social Science. The Department of Education offers a variety of programs including the **Bachelor of Education (Hons) in TESL, Early Childhood Education, Visual Arts, Science, Physical Education and Health, and Electrical & Electronic Engineering**. It also provides diploma programs in TESL and Early Childhood Education, along with a Foundation in TESL. Meanwhile, the Department of Social Science offers a diverse range of courses such as **Bachelor of Counselling and Guidance (Hons), Public Relations Management (Hons), Psychology (Honours), Broadcasting (Hons), English Language and Literature Studies (Hons), Liberal Arts (Honours), and Translation and Interpreting (Honours)**. This department also offers diploma programs in Counselling and Guidance, Public Relations and Entertainment Management, and a Foundation in Liberal Arts. Together, these departments prepare students for careers in education, social sciences, communication, and the arts.

School of Hospitality and Creative Arts

The School of Hospitality and Creative Arts consists of four departments: Hospitality, Fashion and Beauty, Culinary, and Music. The **Department of Hospitality** offers programs such as the **Bachelor in Hospitality & Tourism Management (Hons), Event Management (Hons), Outdoor Recreation Management (Hons), and Airlines Services Management (Hons)**, alongside diplomas in related fields like Hospitality & Tourism Management, Event Management, Outdoor Recreation, and Sports Management. The **Department of Fashion and Beauty** provides specialized courses including the **Bachelor of Spa Management (Hons), Fashion Design with Marketing (Hons), and Beauty and Hair Management (Hons)**, as well as diplomas in Fashion Design, Spa Management, Hairdressing, and Beauty Management. The **Department of Culinary** features programs like the **Bachelor in Culinary Arts (Hons) and Patisserie Arts (Hons)**, complemented by diplomas in Culinary Arts and Patisserie Arts. Lastly, the **Department of Music** offers a **Bachelor in Music Technology (Honours)** and diplomas in Music Technology and Music. Together, these departments provide comprehensive training for careers in hospitality, fashion, culinary arts, and music industries.

Postgraduate Studies

The university offers a wide range of postgraduate programs across various disciplines to cater to advanced academic and professional development. At the doctoral level, there are **Doctor of Philosophy (PhD)** programs available in fields such as Management, Accounting, Education, Social Sciences, Computer Science, Information and Communication Technology, Food Service Technology, Biomedicine (by research), Engineering, Applied Science, and Health Sciences. For master's degrees, the offerings include professional and research-based programs such as the **Master in Business Administration, MSc (By Research) in Accounting and Finance,**

Master of Management, Master in Educational Management and Leadership, and Master of Education (Teaching English as a Second Language). Specialized master's programs are also available in International Business, Fashion Business, International Hospitality and Tourism Management, Early Childhood Education, Counselling and Guidance, International Event Management, Computer Science, Food Service Technology, Biomedicine, Biomedical Sciences, Information Technology, Clinical Pharmacy, Engineering, Pharmacy, Applied Science, Design, Medical Physiology, Public Health, Anatomy, and Clinical Psychology. These postgraduate programs aim to foster research excellence and professional expertise to meet the evolving demands of industries and academia.
